

# BATTLESHIPS

15x15, Hard

**Battleships** also known as **Bimaru** is a logic puzzle with simple rules and challenging solutions.

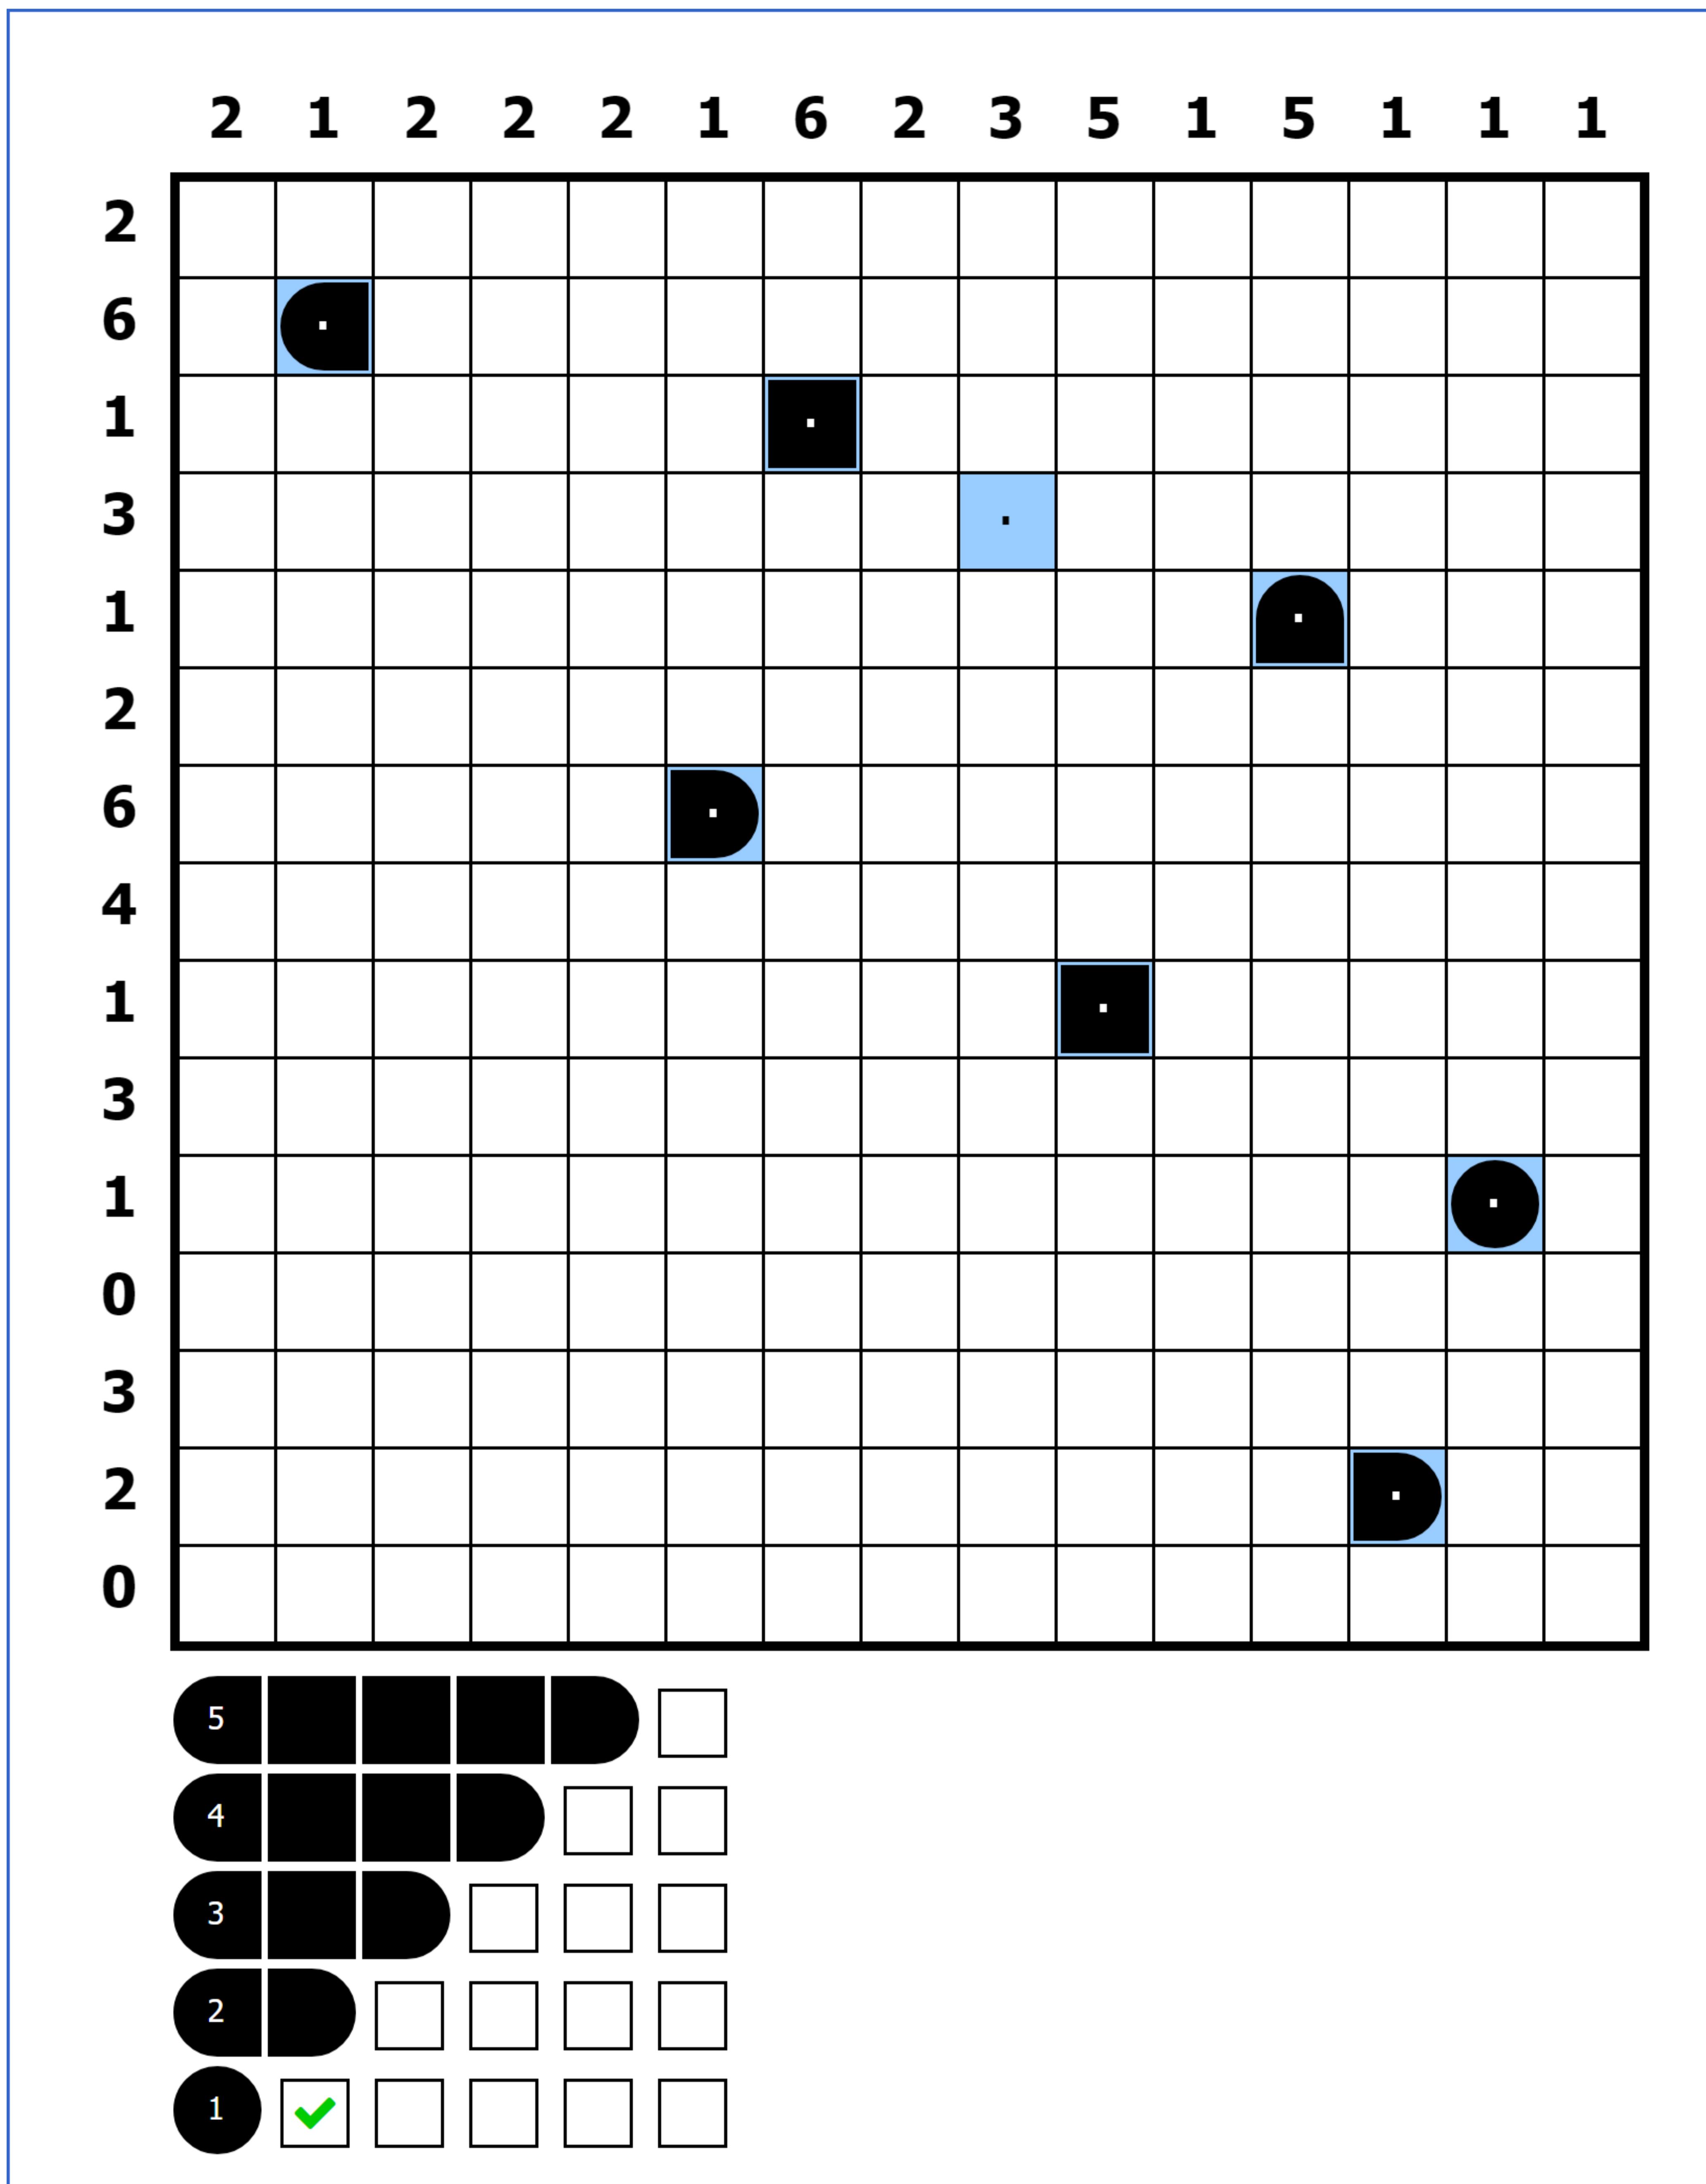

**The rules** of Battleships are simple:  
You have to find the location of the battleships hidden in the grid. Some battleships may be partially revealed.  
A battleship is a straight line of consecutive black cells.  
The number of the battleships from each size is shown in the legend below the grid.  
2 battleships cannot touch each other (even diagonally)  
The numbers outside the grid show the number of cells occupied by battleships on that row/column.
